

Output 4 Institutions, including local institutions, are strengthened through better interministerial coordination, improved monitoring and evaluation systems, digital transformation, enhanced statistical capacities allowing for evidence-based policymaking and implementation, and through the implementation of SDG-driven financing mechanisms

Accelerators

- Data and evidence
- Leaving no one behind
- Resilience in adaption
- Innovation and digitization

Key Strategies

- Developing investment cases, including for adolescent girls, aimed at increasing public investment
- Supporting national frameworks for national strategies
- Addressing legislative gaps, institutional mechanisms to address medical malpractices
- Engaging with international and regional human rights mechanisms
- Ensuring multi-sectoral coordination of services
- Availability of age and sex-disaggregated data
- Carrying out quantitative and qualitative research
- Enhancing local governance and accountability

Noura

NEW EGYPT COUNTRY PROGRAMME 2023-2027

Country Programme Vision

Create an enabling policy and social environment where girls and young women's agency is harnessed to ensure they make informed and healthy reproductive health decisions

Output 1

By 2027, youth, in particular girls' agency and human capital are strengthened to enable them to make informed choices and realize their full potential

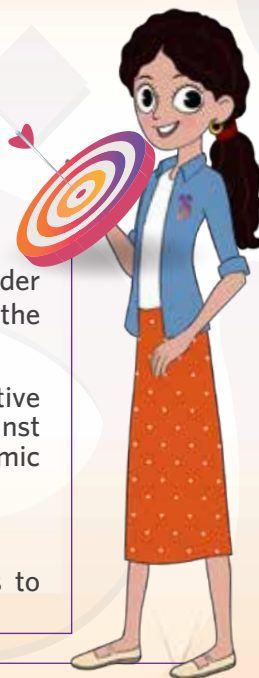

Accelerators

- Partnerships
- South-South and triangular cooperation
- Innovative financing

Key Strategies

- Rolling out the national program on girl empowerment under First Lady: The Girls Assets Framework, Noura, builds the social, health and economic assets of adolescent girls
- Creating linkages between maternal health, reproductive health and family planning, gender-based violence against women and girls, harmful practices and economic empowerment programs
- Building youth's skills, knowledge and capacities
- Applying innovation through incubators and accelerators to advance the programme

Output 2

By 2027, capabilities and capacities of actors and institutions are strengthened to promote gender equality and expand a zero-tolerance environment towards all forms of gender-based violence against women and girls

Accelerators

- Partnerships
- South-South and triangular cooperation on international good practices.

Key Strategies

- Scaling up the engagement of local civil society organizations and community-based organizations

- Expanding the engagement of religious and community leaders
- Engaging men and boys
- Applying interactive modes of engagement
- Increasing the integration of age-appropriate population education
- Expanding multimedia and behavioral change campaigns.

Output 3

By 2027, the capacities of national systems, including local institutions, are strengthened to provide quality, comprehensive and inclusive reproductive health-care services and information, as well as services addressing gender-based violence against women and girls and harmful practices

Accelerators

- Partnerships
- South-South and triangular cooperation
- Public-private coordination
- Innovation and digitalization of resources

Key Strategies

- Building the capacities of service providers
- Addressing healthcare malpractices especially on harmful practices
- Improving human, technical and institutional capacity of the family planning national supply chain
- Relying on Learning Management Systems (LMS) and the digitalization of learning material
- Strengthening and expanding adolescents and youth-friendly health-care services
- Improving local and specialized response services on gender-based violence against women and girls and harmful practices
- Reintegrating domestic violence and child marriage survivors
- Increasing community awareness of available services
