II – Service Requirements/Terms of Reference (ToR)

Objectives and scope of the Services

- **Background information**
Safe Women Clinics fall under UNFPA’s national program to combat all forms of GBV through a direct partnership with the National Council for Women since 2019 to implement the national Women’s Empowerment Strategy 2030 in partnership with line-ministries, state partners and CSOs. The program adopted the international Essential Services Package (ESP) global standards. Through the ESP framework the legal, medical and social services in Egypt for women subjected to violence are enhanced to better respond to their needs. Under the same programmatic vision adopted by UNFPA, the adoption of the national referral pathway in 2019 for women subjected to violence is one of the important results of the ESP national implementation in Egypt. The referral pathway currently serves as the baseline of national interventions in the legal, medical, social services coordinated by the National Council for Women to ensure that women subjected to violence have access to comprehensive response, and that national service providers are able to ensure referral among the three sectors.
