Service Requirements/Terms of Reference (ToR)

Objectives and scope of the Services

- Background information
  In 2022 UNFPA Egypt adapted to the Egyptian context the GIZ Generation dialogue model. Developed in 2001 by GIZ, Generation Dialogue has been adapted to address topics related to Reproductive Health as well as Female Genital Mutilation (FGM) implemented in a number of African and Asian countries. The Generation Dialogue is an ever-evolving methodology, constantly being refined on the basis of implementation experiences.

  The approach comes from the idea that communities have their own reasons for practicing harmful practices such as FGM and the Generation Dialogue is there to create a space for discussion over this topic so that their legitimacy is questioned and challenged by the community members themselves. UNFPA targets women from the older generation, with the focus on grandmothers and mothers-in-law “the gatekeepers”, to build mutual trust with younger generation and discuss finding participatory solutions to combat FGM against adolescent girls. Through generation dialogue, grandmothers and mothers-in-law will be actively engaged and become active advocates to change social and gender norms against FGM.

- Developed objective(s)
  UNFPA adapted the generation dialogues methodology developed by the Deutsche (GIZ) and contextualized it to the Egyptian context to address the elimination of harmful practices with a focus on FGM.
In 2021, UNFPA Egypt piloted the GD in five governorates in Upper Egypt; namely Sohag, Assuit, Menya, Beni Suef, and Qena covering a total of 6 communities and the first pilot was completed successfully by the end of 2022.

Please refer to this link: [https://health.bmz.de/toolkits/generation-dialogue-toolkit/](https://health.bmz.de/toolkits/generation-dialogue-toolkit/) to understand the GIZ toolkit methodology. ANNEX II:
TOR - “Generation Dialoguer - Phase II”
A community approach for changing social norms and eliminating FGM

Background

Objectives and scope of the Services
In 2022 UNFPA Egypt adapted to the Egyptian context the GIZ Generation dialogue model.

Developed in 2001 by GIZ, Generation Dialogue has been adapted to address topics related to Reproductive Health as well as Female Genital Mutilation (FGM) implemented in a number of African and Asian countries. The Generation Dialogue is an ever-evolving methodology, constantly being refined on the basis of implementation experiences.

The approach comes from the idea that communities have their own reasons for practicing harmful practices such as FGM and the Generation Dialogue is there to create a space for discussion over this topic so that their legitimacy is questioned and challenged by the community members themselves. UNFPA targets women from the older generation, with the focus on grandmothers and mothers-in-law “the gatekeepers”, to build mutual trust with younger generation and discuss finding participatory solutions to combat FGM against adolescent girls. Through generation dialogue, grandmothers and mothers-in-law will be actively engaged and become active advocates to change social and gender norms against FGM.

UNFPA adapted the generation dialogues methodology developed by the Deutsche (GIZ) and contextualized it to the Egyptian context to address the elimination of harmful practices with a focus on FGM.

In 2021, UNFPA Egypt piloted the GD in five governorates in Upper Egypt; namely Sohag, Assuit, Menya, Beni Suef, and Qena covering a total of 6 communities and the first pilot was completed successfully by the end of 2022.

Please refer to this link: https://health.bmz.de/toolkits/generation-dialogue-toolkit/ to understand the GIZ toolkit methodology. UNFPA Egypt has adapted the methodology to the Egyptian context and this will be shared with the selected service provider.

UNFPA is seeking to hire a consultancy firm that can provide ongoing support on implementing the generation dialogue methodology.

Please see some of the key steps below to be done in the communities and with implementing partners identified by UNFPA:

- **Listening and learning through consultations**
  In a structured consultative process, community members and the Dialogue team build a trusting relationship.

- **Designing your Dialogue sessions**
  The Dialogue team adapts the standard Dialogue sessions so that they are tailored to the specifics of the community and the Dialogue topic.

- **Conducting Dialogue sessions**
  Over the course of the Dialogue sessions participants jointly envision a roadmap for change in their community.

- **Widening the Dialogue**
At a Public Meeting persons of influence and community members at large are invited to support the envisioned process of change.

- **Sustaining the momentum**
  In the months following these structured activities all those involved in the Dialogue need to keep the community’s change process alive.

Contract duration: From September 2023 - August 2024
